About This Game

A colorful experience that sticks to the **basics of brick breaker** games and makes the most of it.

This game is intended as a bag of candies, giving you lots of short levels packed with **intense action**.

The "retro modern" looks of the game matches perfectly a gameplay filled with subtle improvements that makes the old feel more lively than ever

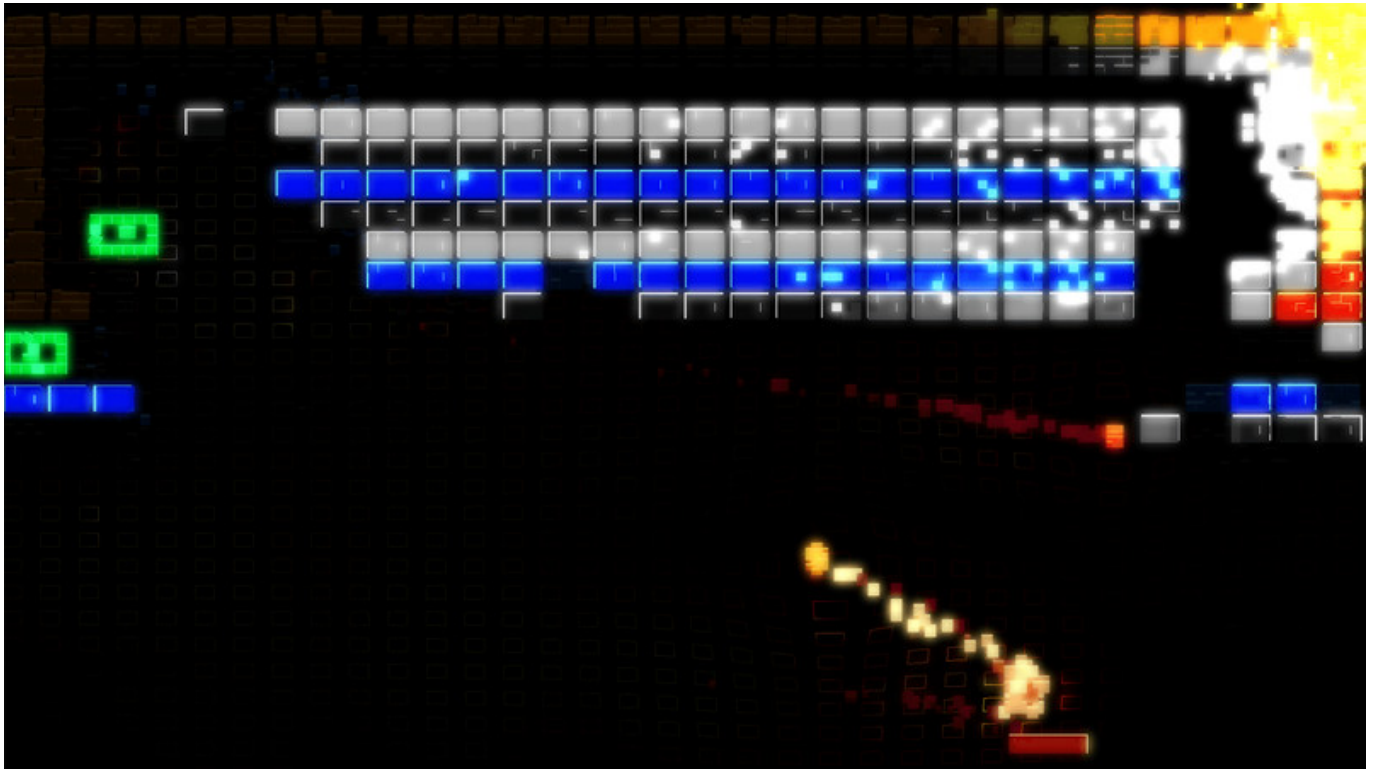

It also has a **kids mode** that I developed with my 5 years old

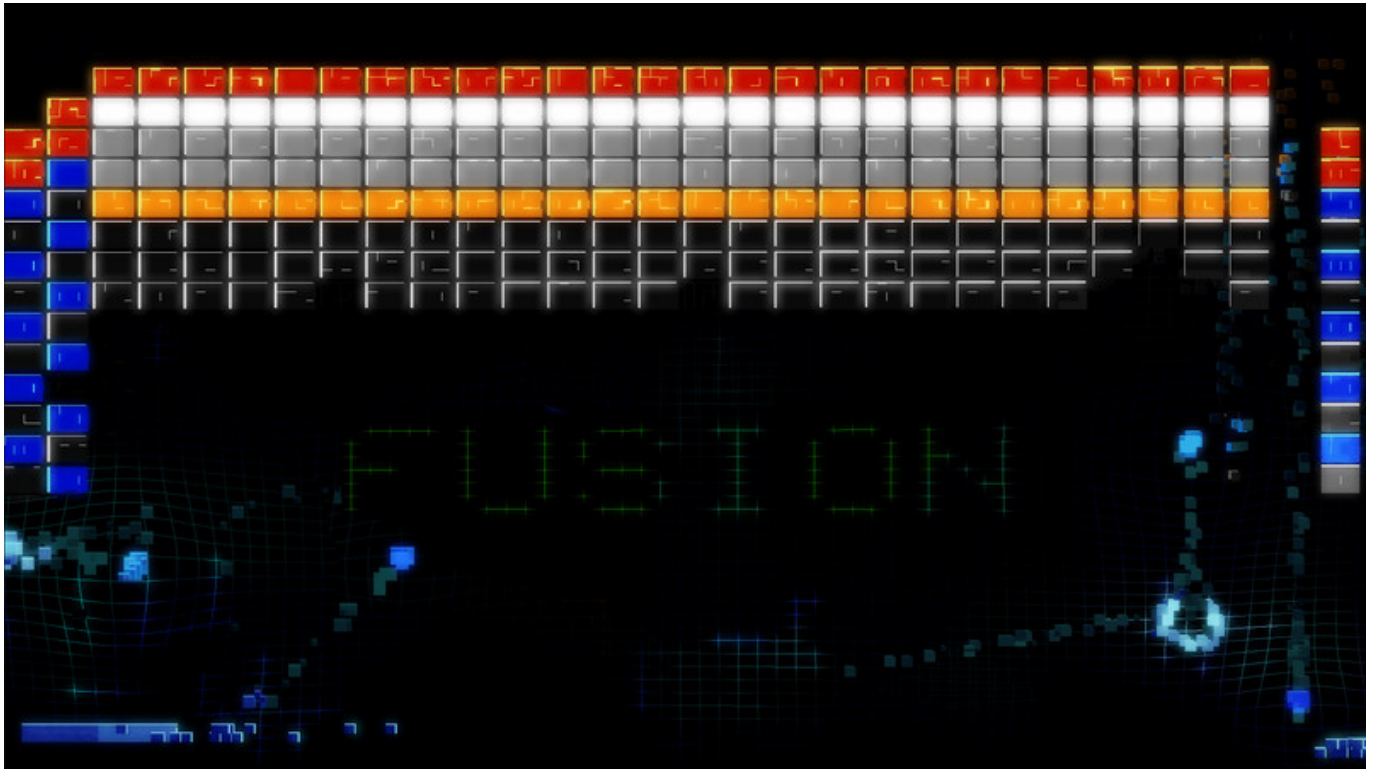

As the only person behind this project, I thank you deeply

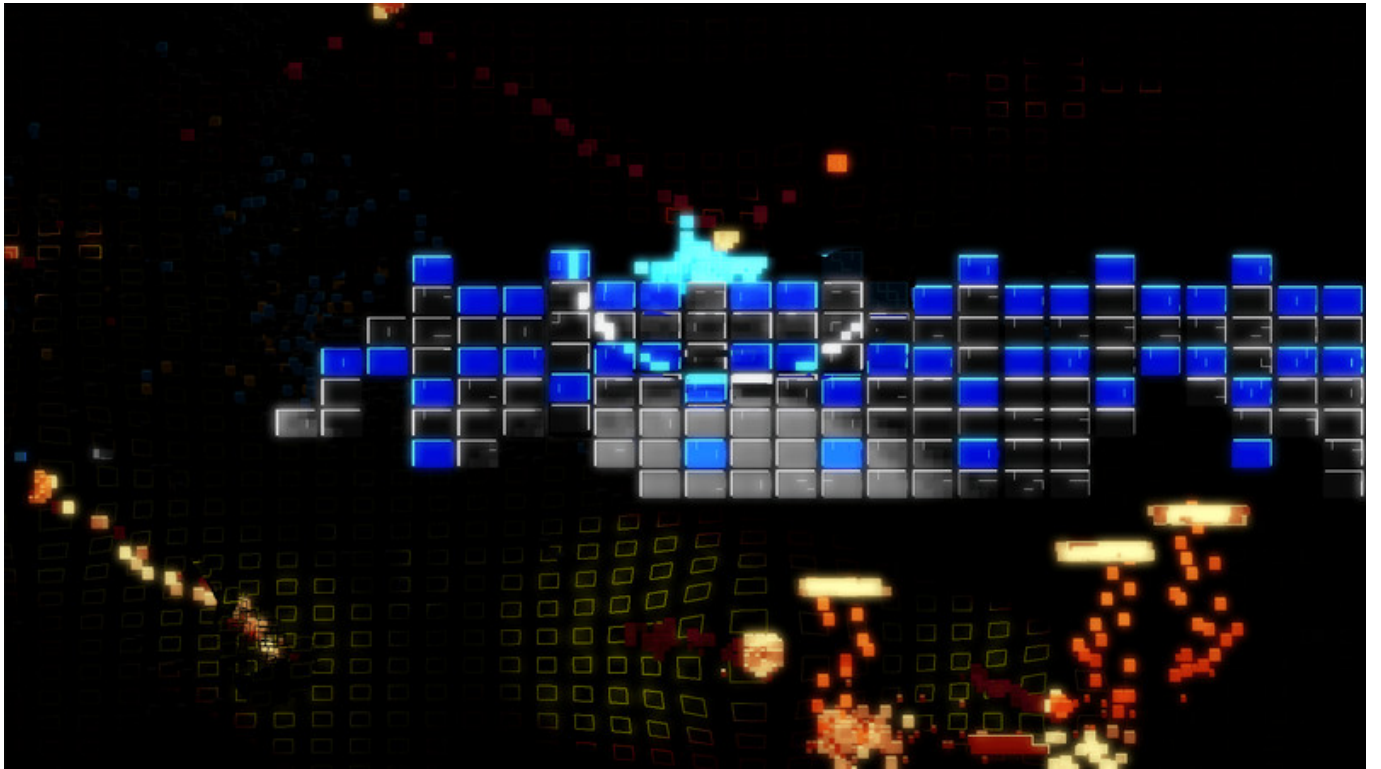

Title: Twaddle Paddle
